

AKMAL FARIZKY HARDHANA

Full-Stack Developer | IT & Software Development

📞 0899-1855-149 ✉ akmalfatizky@gmail.com 🌐 malworks.my.id 📍 Semarang, Central Java, Indonesia

PROFESSIONAL SUMMARY

Full-Stack Developer with a background in Informatics Engineering and hands-on experience building and maintaining web applications for organizations and business clients. Experienced across frontend and backend development, REST APIs, authentication, relational databases, debugging, testing, and independent software development. Proficient in React.js, Laravel, Inertia.js, Node.js, Express.js, and MySQL, with additional experience developing interactive software systems using Roblox Studio and Luau.

EXPERIENCE

Full-Stack Developer Intern 2024 – 2025
Indonesia Career Center Network (ICCN) – Semarang, Central Java

- Developed and maintained the organization's official website as part of the internal development team.
- Built responsive and interactive user interfaces using React.js and Tailwind CSS, including reusable components and frontend features.
- Managed MySQL data using SQL, including CRUD operations, data retrieval, and relational queries.
- Implemented new features and performed debugging, testing, and maintenance to maintain application stability.

Full-Stack Software Developer Intern 2023 – 2024
PT. Samaya Interactive – Semarang, Central Java

- Developed web applications for business clients as part of a software development team.
- Built frontend interfaces and backend application logic using React and Laravel, integrating both through Inertia.js.
- Implemented authentication using Laravel Breeze within Laravel-based applications.
- Developed features based on client requirements and performed debugging, testing, and maintenance.

Game Developer & Studio Owner 2024 – Present
ThinkBros Studio

- Developed and published Roblox experiences using Luau and Roblox Studio.
- Designed and implemented gameplay systems, player progression, and interactive mechanics.
- Built and maintained persistent player-data systems and core game functionality.
- Managed development from implementation and testing through release and post-launch updates.

Independent Digital Project 2020 – Present
Kepikiran Aja – YouTube

- Built and independently managed a digital platform to 200K+ subscribers and 92M+ total views.
- Analyzed audience and platform performance data to support data-driven decisions and strategy optimization.
